Training Schedule January to December 2011

2011

Course contents	Course Key	Days	January				February				March					April				May				June					July				August					September				October				November					December			
			3	10	17	24	31	7	14	21	28	7	14	22	28	4	11	18	25	3	9	16	23	30	6	13	20	27	4	11	18	25	1	8	15	22	29	5	12	19	26	3	10	17	24	31	7	14	21	28	5	12	19	27
			7	14	21	28	4	11	17	25	4	11	18	25	1	8	15	21	29	5	13	20	27	3	10	17	24	1	8	15	22	29	5	12	19	26	2	9	16	23	30	7	14	21	28	4	11	18	25	2	9	16	23	30
Basic auto electrical	EL-B	2.5																																		C																			
Advanced auto electrical	EL-A	2.5																																		C																			
12 Volt Starters & Alternators	EL-1	3												C																																								
24 Volt Starters & Alternators	EL-2	3																																																			
Comfort systems	EL-3	2.5																																																			
Safety systems	EL-4	2.5																																																		
On Vehicle electrical systems	VES	3																								C																												
Controller Area Networks	CAN	3														C																							D															
Basic Electronics	EK-1	4										D								C																																	
Intermediate Electronics	EK-2	4																											D																			C				
Advanced Electronics	EK-3	4																																																		
L, LE, LH & Motronic fuel injection systems	JET-1	3																																																		
Advanced engine management systems	JET-2	3						D																																											
Non-Bosch engine management systems	JET-3	3																																																	
GDI Gasoline Direct Injection	JET-6	3																	D																																	
Ignition	IGN	3						D																																											
Hydraulic brake systems	BRAKES	2.5																																															C			
Anti-lock brake systems	ABS/ESP	2.5																																														C			
Vehicle service & maintenance	VSM	3																																																	
Bosch Specific Vehicle Service	BVS	3																								C										D															
Bosch Service Maintenance Plan**	BSMP**	1																								C										D															
Combined Diesel basicsand A-type pumps	EP-1A+B	5																																																	
P-type diesel fuel pumps	EP-1P	4																																																	
Governor settings & adjustments	EP-2	3																																																	
VE, F type diesel fuel pumps	EP-3	2.5																																																
EDC distributor pumps (VE-E)	EDC-1	3																																																
EDC on vehicle diagnostics	EDC-2	3												D																																			C			
EDC Pand R type pumps with RE Govs.	EDC-3	2																																																
EDC in-line H pump with RE Gov.	EDC-3H	2.5																																																
CR High Pressure Pumps CP1 and 3	EDC-4	2																																															
CR injectors	EDC-5	2.5																																															
Unit Injector and Unit Pump Systems	EDC-6	2.5																																															
Zexel (MD/HD with RLD Govs.)	ZX-1	2.5																																															
Zexel (TICS with RED Govs.)	ZX-2	2.5																																														
Zexel/Bosch Two Spring Injectors	ZX-3	1																																														
Bosch Diesel Technician seminar	SEM-D	4																																															
Bosch Systems Technician seminar	SEM-S	4																																															
Bosch Diagnostic Technician seminar	SEM-TD	2																																														
Namibia	BCN	5												N												N																								
Zambia	BCZ	5																											Z											Z												
Kenya	BCK	5																												K																		K			
Tanzania	BCT	5																													T																				
Public Holidays (South Africa)																		22	25	2							16								9																		16		

Technical Training Venues

- C — Cape Town
- Midrand
- D — Durban

Course Key

1 Day	2 / 3 Days	2 / 3 Days	4 / 5 Days
Monday Only (8.30)	Monday (8.30)	Wednesday (8.30 or 13.30)	Monday (8.30)

BC-Bordering Countries.

** The BSMP course will run for 1 day concurrently after the BVS course
